Spectrum Club,
College Of Engineering and Technology
Bhubaneswar
www.spectrumcet.com

Dear Participant,

In this internship drive, you will have to work in three stages. Stage 0 and Stage 1 will merely be easy tasks whereas Stage 2 will be an implementation of Stage 0 and Stage 1 in a project. Each stage will have its own time limit. Go ahead, check the technology stack, learn more and implement. Wish you luck and hope you ~~build~~ design yourwe best website.

<!- - Building a website is easy, designing one takes the skill - - >

Welcome to the **Stage 0**.
You are provided with following **Task 0** and have to submit it by given date.

TASK 0:

Technology Stack to be used:

-    HTML   -CSS   -JS   -Bootstrap
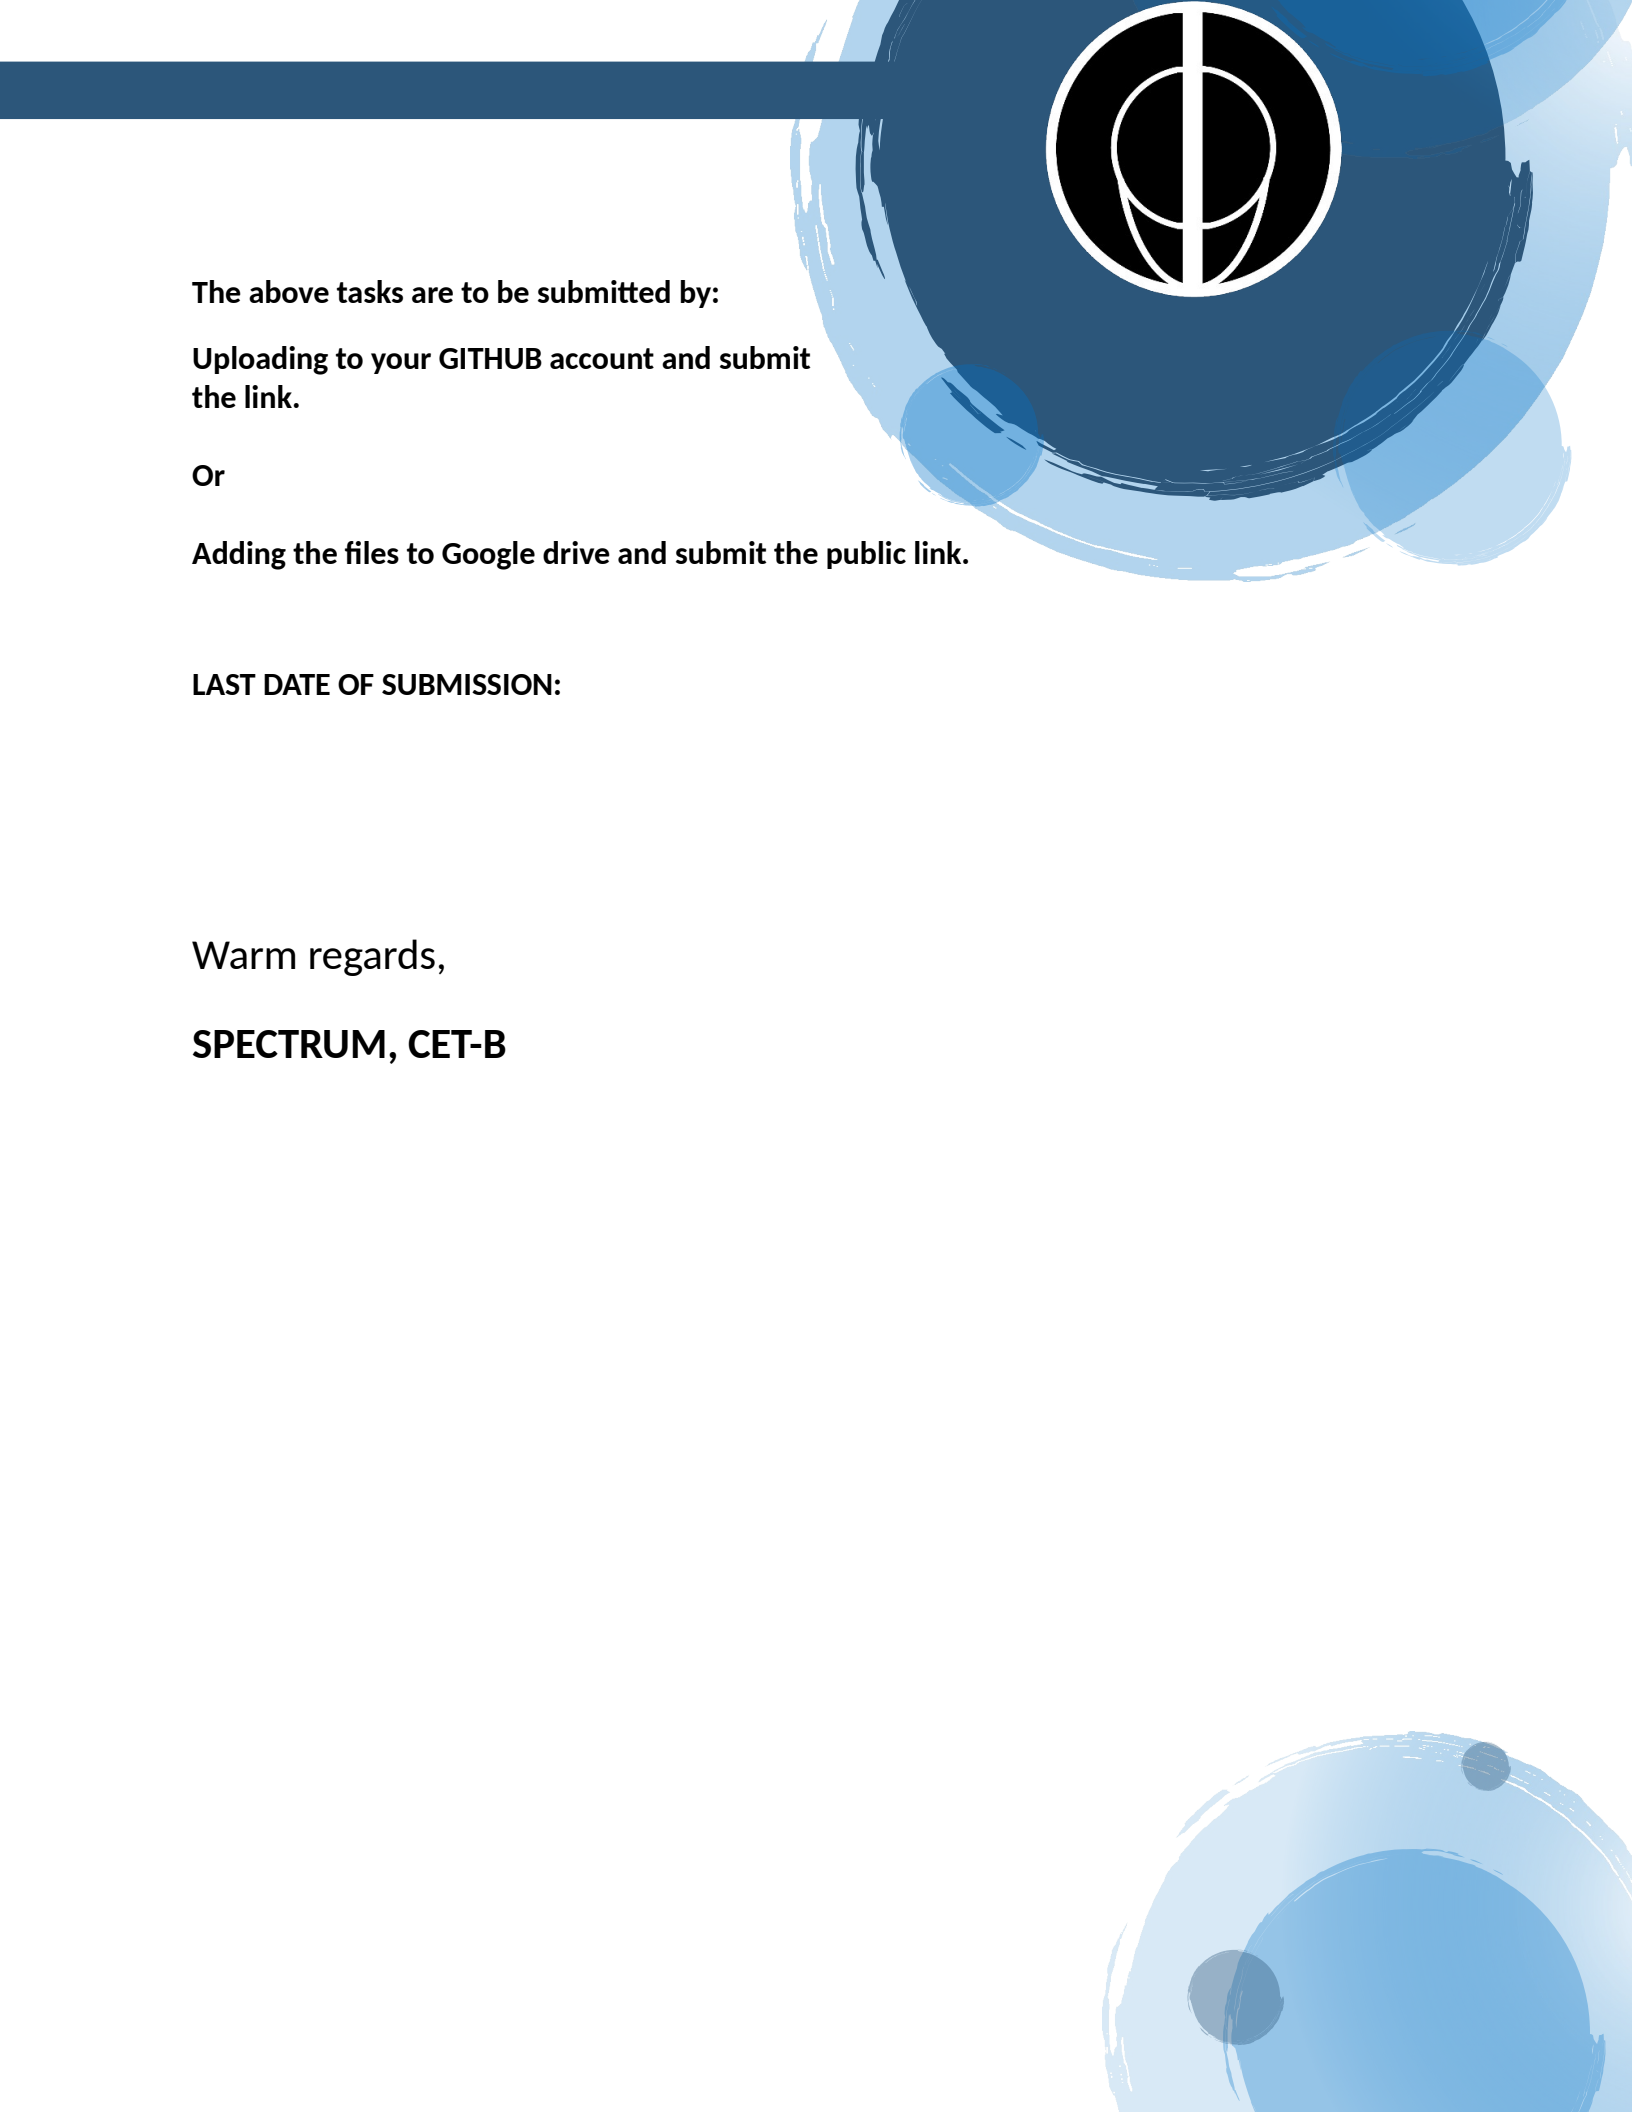

Tasks:

1- **index.html**
   a. Add a <form> with action="#" including two <input> fields (Username and Password) and submit button.
   b. Add other asset files like CSS, JS etc. to make it user interactive.
   c. Make it responsive.
2- **cbranch.html**
   a. Add a <button> to the page. (There might be a need of multiple such buttons in the future tasks)
3- **bsection.html**
   a. Add a <form> with <input> (Date) and submit button.
   b. Add a <table> with 3 columns after the above <form>.
   c. Make it responsive.

The above tasks are to be submitted by:

Uploading to your GITHUB account and submit the link.

Or

Adding the files to Google drive and submit the public link.

LAST DATE OF SUBMISSION:

Warm regards,

SPECTRUM, CET-B
